

Shenandoah, Somewhere In The Vicinity

Thousand miles of lonesome highway
Drinkin gallons of coffee in a little cafe
Brought me here and it's so good to find
There's someone who's got the same story as mine
Just look at us we're a couple hard cases
How'd we end up where we are

somewhere in the vicinity of the heart
I feel somethin hittin me awful hard
I don't know where it's gonna lead
I just know it starts

somewhere in the vicinity of the heart

Been so long, I can't believe I feel something so sweet
Where an ache used to be
Don't fall in love anymore
But I've never met anyone like you before
Stay here with me for a couple more minutes
I think there's something goin on

repeat chorus
