

Sherrie Austin, Like A Cat

(Sherrie Austin/Templeton Thompson/Sally Barris)

Yeah, Yeah, Yeah

Well I've landed on my feet again
Just like I do every time
And if you want to be my friend
Treat me right
People say I'm so aloof
Well it's just because I have learned
To stay away from that hot tin roof
So I won't get burned

Like I cat I'm the cautious kind
Yeah I'd usually be gone by now
But it's something about you that I like
And I just might stick around
I just might stick around

You don't play those silly games
Just all the others do
You laugh at my peculiar ways
And I laugh back at you

Like I cat I'm the cautious kind
Oh I'd usually be gone by now
But it's something about you that I like
And I just might stick around
I just might stick around

Curiosity sometimes takes me
Places I shouldn't go
But all my instincts say
Maybe I should stay
You never know
Never know

Like I cat I'm the cautious kind
Yeah I'd usually be gone by now
But it's something about you that I like
Oh and I just might stick around
I just might stick around
I just might stick around

Yeah, Yeah, Yeah
Yeah, Yeah, Yeah

Well I've landed on my feet again
