

Shihad, Brightest Star

When you go against the grain
Do you know just how beautiful you are?
When there's nothing left to say,
You're the brightest star.

When there's nothing left to say,
Do you know just how beautiful you are?
When you go against the grain
You're the brightest star.
You're the brightest star'

When you go against the grain
Do you know just how beautiful you are?
When there's nothing left to say,
You're the brightest star.

We're like the water at the edge of a wave
that gets left upon the shore,
Disappears into the sand,
And was seen no more.
