## Shihad, Outta Phase

Who got the buzzer
Who got the bell
Who gonna false start
Who gonna tell
Got no possessions
Got no car
Just close my eyes
Gone to far

I don't care when my heads outta phase I'm prepared to feel just great I don't care for getting stuck with a life of wasted time

You got my number I'm on your list Do me a favour Stick to the wrist Don't like that nose job Don't like her hair You heard the latest? Who really cares

I don't care when my heads outta phase I'm prepared to feel just great I don't care for getting stuck with a life of wasted time I prefer walking out of line

The latest offer You got the time Why do you bother? A movement sideways It's all it takes Stand back
