Shiny Toy Guns, Shaken

Running in circles Chasing pain Of yesterday Shaken...fearful Because I've come Back for what is trouble Still...

[Chorus]
I will wait it out
I will wait it out
I will wait it out
I will not be shaken

Strange calls to meet those Who feel and know How to give up The stage lights And heroes Razor pain Rubbed it all away, love Still

Didn't notice it right away
Didn't notice it until it was too late
I'm gonna change my desire
For your all consuming fire
Didn't wanna cry out at night
Didn't wanna stop at mid flight
I didn't plan for the fall
When I was running from it all...

Have I no evil Citizen Cain Slowed-- my desperate running Still....
