

Shirley Murdock, Times We've Had

You know the times we've had
You know that everything's sad
Won't happen but it will yield

These things
Falling down
All around me, i hate it
You call me up
We're all there
summer wind is in the air
Time for those fires
In the yard, you can't discard
Our past and our memories..

You know the times we've had
you know that eveything's sad
Won't happen but it will yield

Time, time stood still
Do you remember when we kissed
on my porch , it meant the world to me
how about you
i stood still
but my life turned upside down it's just a small part
of those memories

You know the times we've had
you know that eveything's sad
Won't happen but it will yield

These dreams... These dreams, i dream your dreams.
