

# Shivaree, After The Prince And The Showgirl

You've gotta be hard  
If you gonna get her  
Don't leave her scarred  
All dead=all better

You've gotta remember  
To do it all right  
Turn the lights out  
Lock it up tight

Don't you walk on the grass  
And don't leave any clues  
Better wash off your glass  
And wipe the mud off your shoes

Too much information  
Just gets 'em going  
Down at the station  
Don't want 'em knowing

Don't stop to wonder for too long  
Just make sure there's something  
That she likes on the radio

When duty calls  
Miss Niagara falls

But when they ask me  
I'll just say that I didn't know

When will you call?  
Well after it's over  
Are you sad at all?  
I don't even know her  
Don't let it hurt  
I'll be fast  
I feel so bad  
It won't last  
When you get back  
I'll be clean  
And please don't say anything mean

But you've gotta dress nice  
Try not to upset her  
Just a little advice  
If you're gonna get her

Drive by the bank  
And check on the tank  
And when they ask me  
I'll just say I didn't know
