

# Shout Out Out Out Out, Forever Indebted

Big debts.

You know they got me,  
More than I got out  
And every month I think I've finally hit the bottom  
But they keep growing  
And fucking growing  
And every month I get in deeper  
With my knowing.  
Well, God damn!  
How did this happen?  
It's not like I spend all my time spending, spending.  
Well, God damn!  
If I could get out,  
Somehow I know I'd just go right back in.

All my friends  
They're in the same boat  
They just can't get out  
But they keep working every day as if there's hope  
And that's it  
That's how we're living  
And to boot, we're still made to feel guilty  
Well, God damn!  
How did this happen?  
It's not like we spend all our time spending, spending.  
Well, God damn!  
If we could get out,  
Somehow I know we'd just go right back in.

They say we have to learn to compromise  
Stay inside our means and we'll all be fine but  
We're surrounded by their credit lines  
And their payment plans with interest, my oh my and  
Why do you think they fucking advertise?  
It's cause we'll make them rich  
While they ruin our lives and  
Like Jaycie Jayce in a conga line  
I'm in an awkward place and I'm out of time.  
And they only say you have to compromise  
Once in you're in too deep  
And they own your life and  
It's no wonder that we're all stressed out  
When paying bills is always on our mind and  
They say we have to learn to compromise  
Stay inside our means and we'll all be fine but  
We're surrounded by their credit lines  
And their payment plans with interest, my oh my and  
Why do you think they fucking advertise?  
It's cause we'll make them rich  
While they ruin our lives and  
Like Jaycie Jayce in a conga line  
I'm in an awkward place and I'm out of time.
