

Shout Out Out Out Out, Procrastinator's Fight Song

Deadlines

They're coming down quickly

They're all depending on me

I'm gonna sort it out now

I know

I use my time badly

When I've got, when I've got, way too much on my plate

Like right now, right now (right now)

This is it out of time all I got is right now

Right now, right now (right now)

Come on in, concentrate, get it figured out now

Well I admit

I get distracted sometimes

When I've got, when I've got way too much on my plate

And I know, I use my time badly,

I've got to pull it together, get organized now

Right now, right now (right now)

This is it out of time all I got is right now

Right now, right now (right now)

Come on in, concentrate, get it figured out now

Well I admit, I get distracted sometimes

When I've got, when I've got, way too much on my plate

And I know, I use my time badly

I've got to pull it together, get organized now

Right now, right now (right now)

This is it out of time all I got is right now

Right now, right now (right now)

Come on in, concentrate, get it figured out now
