

Showoff, Ocean Time

She brought me to the ocean
We were both holding hands
When in a softly whisper
Saw how she'd understand

Your feelings are alright
As long as they're mine
Your feelings are alright
As long as they're mine
They may be hard to find
If you're running on ocean time

As we walk together
Pictures fill up my mind
I remember when I first met her
But it's not the same this time
And I was so mislead
That I thought if I cared enough
She'd fall in love
But I guess I was wrong
And she said..

Your feelings are alright
As long as they're mine
Your feelings are alright
As long as they're mine
They may be hard to find
If you're running on ocean time

When we walk together
Things used to seem alright
Thought it would last forever
But I couldn't get past that night
And I was so mislead
That I thought if I cared enough
She'd fall in love
But I guess I was wrong

And I was so mislead
That I had to leave
That down side my head
When she said..

Your feelings are alright
As long as they're mine
Your feelings are alright
As long as they're mine
They may be hard to find
If you're running on ocean time

She brought me to the ocean
And I'll never go there again

Your feelings are alright
As long as they're mine
Your feelings are alright
As long as they're mine
Your feelings are alright
As long as they're mine
They may be hard to find
If you're running on ocean time
Running on ocean time
Running on ocean time
If you're running on ocean time

Running on ocean time
If you're running on ocean time
Running on ocean time
