Showoff, Waiting For You

When I think of your smile It makes me smile too I cant believe how far away you really are Did you ever think of anyone else Did you ever think of yourself One wish I had I used on you

III be right here waiting for you Waiting for you [2x]

When I look in your eyes I see much more than you I cant believe how fucking strange you really are I can't think of anyone else I can barely think for myself All I know is that I love you

III be right here waiting for you Waiting for you [2x]

I dont wanna face the world without you [6x]

III be right here waiting for you Waiting for you [2x]
