

# Showtek, VÉRITÉ, Pour It Down

Sleep next to me  
Fill my cup with a dream  
And watch me pull 'em down  
It's a draining feeling  
There's a lack of colour here  
Does it blind you, make you scared?  
Watch me pour it down

And do you want to listen to me lying?  
'Cause it can't be a surprise that  
In the darkness, it's blind, but we're not holding on to light  
And you can blame it on the timing  
See me clear in different lighting  
But the truth here, is that love, you never learn

So give me all your love, love  
And you can watch me pour it down  
Give me all your love, love  
And you can watch me pour it down

You're a good guide  
Hold you brighter in the sky  
Make your plan, who lives and dies  
Don't hold it up for me  
Pour it down

'Cause I wanna drown for you  
Make all my mistakes, then come around for you  
Anticipate defeat, throw down my crown for you  
I got a love for you  
I pour it down for you

So give me all your love, love  
And you can watch me pour it down  
Give me all your love, love  
And you can watch me pour it down

Give me all your love, love (All your love, all your love)  
(All your love, all your love)  
And you can watch me pour it down  
Give me all your love, love (All your love, all your love)  
(All your love, all your love)  
And you can watch me pour it down

And do you want to listen to me lying?  
'Cause it can't be a surprise that  
In the darkness, it's blind  
But we're not holding on to light  
And you can blame it on the timing  
See me clear in different lighting  
But the truth here, is that love, you never learn

So give me all your love, love  
And you can watch me pour it down  
Give me all your love, love  
And you can watch me pour it down

(All your love, all your love  
All your love, all your love  
All your love, all your love)

(All your love, all your love  
All your love, all your love  
All your love, all your love)
