

Shwayze, Shotgun

I don't want you in my passenger seat
Not anyone can be my shotgun
I don't want you ridin next to me
I ride alone
I remember all those times I went to pick you up
At your mommas house in my pickup truck
We drive out of town like a lightning bolt
No place to go just dreams and hope
Weed and flows is all I need
I tried to tell you before
You went and fell for me
And I fell for you for a second or two
But I caught myself by the string of my shoe
Now I'm singing to you to let you know
That I'm sorry but I just gotta let you go
I only got one love one heart one mind one drug... turn it up

[Chorus]
All those times I left and came right back
Like a boomerang or an echo on a track
You consume my thoughts when I'm here or there
Near or far you can gimme a call
Don't take my pictures of the wall just yet
I gotta go right now but I'll be back in a sec
I'm a miss you like I miss my bed
Lying there cryin with my pillow on my head
No woman no cry no fear no tears in my eyes no why?

[Chorus]
Sittin all alone and ya waitin by the phone
But you don't know what to do
Daddy's upstairs but we know he don't care about you
You can cry cry cry yourself to sleep tonight
I know everythings gonna be alright without you... without you
One love
One heart
One mind
One drug turn it up
[Chorus]
