

# Sia, I Forgive You (Chromeo Remix)

I thought that I found that I  
Slip, oh, oh, me  
Black as the night, as the night  
Blue as the sea, yeah

I would have done anything  
Would have given everything for you  
I would have done anything  
Would have given everything for you

I... I forgive you, you know now what you have done  
Oh, I, I... I forgive you, now it's time for me to move on  
Oh, I... I forgive you, you could not see right from wrong  
Oh, I... And I'll love you always, in my heart you'll live on  
You'll live on

Good people sing when your name's  
Unspoken, -en, ooh  
You broke my heart, broke my heart  
But it's still beating, oh

I would have done anything  
Would have given everything for you  
I would have done anything  
Would have given everything for you

I... I forgive you, you know now what you have done  
Oh, I, I... I forgive you, now it's time for me to move on  
Oh, I... I forgive you, you could not see right from wrong  
Oh, I... And I'll love you always, in my heart you'll live on  
You'll live on
