

Sia, Life Jacket

I haven't seen better days
seek shelter from the storm
where it follows ,me
your skin follows me
like a black cloud

we're running with no cover
I fear that I may drown
where it follows ,me
your skin follows me
like a black cloud

and I'm so close to giving up
I have lost my fire and I stopped struggling
I let your love wash over me
you will be my life jacket
you will come to save me

here comes the tide
that tries to drag me under

you will be my life jacket
your love it helps me

floating in your oceans
I feel like I can breath
your came for me
you came for me
before I drowned

and now only my heart swims
for you and me
finally,
yes, finally
i have been found

I'm so close to giving up
I have lost my fire and I stopped struggling
I let your love wash over me
you will be my life jacket
you will come to save me

here comes the tide
that tries to drag me under

you will be my life jacket
your love it helps me
