

# Sia, Nowhere To Be

Thought I would never come around  
Thought I could never be found  
Thought that I might have to skip town  
Then I saw your face in crowd

I never knew a love could feel so good  
Holding you  
I never knew a love could feel so good  
Come hold me too

I got nowhere to be  
No one to become  
And we can't get higher  
I got nowhere to go  
Nowhere to run  
No we can't get higher  
Would you listen to me if I had something you need that could set us on fire?  
We've got nowhere to be  
Now it's just you and me  
And we can't get higher  
Get higher  
Get higher  
No no we can't get higher  
Get higher  
Get higher  
No no we can't get higher

Forever now we are free  
Forever in harmony  
Forever we are free to be  
Together just you and me

I never knew a love could feel so good  
Holding you  
I never knew a love could feel so good  
Come hold me too

I got nowhere to be  
No one to become  
And we can't get higher  
I got nowhere to go  
Nowhere to run  
No we can't get higher  
Would you listen to me if I had something you need  
That could set us on fire  
We've got nowhere to be  
Now it's just you and me  
And we can't get higher  
Get higher  
Get higher  
No no we can't get higher  
Get higher  
Get higher  
No no we can't get higher  
Would you listen to me if I had something you need  
That could set us on fire  
We've got nowhere to be  
Now it's just you and me  
And we can't get higher
