

Sia, Soon We'll Be Found

Come along it is the break of day
Surely now, you'll have some things to say
It's not the time for telling tales on me

So come along, it wont be long
'Til we return happy
Shut your eyes, there are no lies
In this world we call sleep
Let's desert this day of hurt
Tomorrow we'll be free

Let's not fight I'm tired can't we just sleep tonight
Don't turn away it's just there's nothing left here to say
Turn around I know we're lost but soon we'll be found

Well it's been rough but we'll be just fine
Work it out yeah we'll survive
We musn't let a few bad times dictate

So come along, it wont be long
'Til we return happy
Shut your eyes, there are no lies
In this world we call sleep
Let's desert this day of work
Tomorrow we'll be free

Let's not fight I'm tired can't we just sleep tonight
Don't turn away it's just there's nothing left here to say
Turn around I know we're lost but soon we'll be found
