

Sick Live, What's Your Type

You're the one
You go ahead and love me,
You make me look bad,
This is what I'm saying
You said I never loved you
Girl you know it's a lie,
I give you all you need, yeah
Money, my house and so
Is there anything
I can do to make you my girl

You know I want you
But you know you want me no more
Listen me!

What's your type? What's your type? yeah
What's your type? What's your type? I need to know!
What's your type? What's your type? yeah
What's your type? What's your type? I need to know
What's your type? What's your type? Yeah
What's your type? What's your type? I need to know
What's your type? What's your type? yeah
What's your type? What's your type? I need to know.

Girl you lied to me,
You don't care from no one else
You saw you're doing this right
Can you sleep well at night?
'cause baby you know I feel it
It feels so so bad,
But I can give it to you
This feeling that you're really need yeah
Come on and run and get it, (come on and run and get it)
You just come and have it, (you just come and have it)
I would give it to you, (I would give it to you)
Don't you wanna have it, uh baby?

What's your type? What's your type? yeah
What's your type? What's your type? I need to know!
What's your type? What's your type? yeah
What's your type? What's your type? I need to know
What's your type? What's your type? Yeah
What's your type? What's your type? I need to know
What's your type? What's your type? yeah
What's your type? What's your type? I need to know.
