Sick Of It All, Breeders Of Hate

My mouth,
Spouts these words of anger and spite
Toward the other man
I'm bent out of shape, i'm feeling irate
Feel that blood flow
The red thats in us all
Is confused with the black and white
The crowd's on its feet,
My message complete
Breed some hatred tonight

Save your insanity! Use that for my needs Bust them up now!

Rally your ignorant minds on my own Take my knowledge
And breed the hate at home
The world wont be at peace
Until my brother's are alone

My mouth, Spouts these words of anger and spite Towards the devil man The crowd's on its feet, my message complete Breed some hatred tonight!
