

Sick Of It All, Force My Hand

Why do what you do? Is this major malfunction new
Isn't it clear to everyone here
What died deep inside
Is benevolence now denied
What about pride was it cast aside

So when I see you friend companionship will come to an end
cause of the way you drove me to dismay.

Force - force my hand - forced to take a hostile stand
force - force my hand - forced into a violent plan
Never gonna want another like it

Benefit me benefit you please benefit the whole damn world
nobody needs your criminal greed couldn't you change -
rearrange put your character back in place
it's a waste to see someone so base Guilt is put away for another day
conscience really non-existent only in the way Lowest of the low
caught in undertow swimming in a sea of dirt sinking as you go Please don't do this...
