

# Sicko, Little

A record box outside my door  
coming home really late from work once more  
and it made my day  
such a little thing  
It's the thought that counts  
and the hope it brings

A little further  
A little bit longer  
A little package is more condensed  
the little things make a big difference

I tried to carry you home from the bar  
but I'm out of shape and it's a little too far  
So far to go, so far apart  
So far so good, and auspicious start
