

# Siddharta, My Dice

Siddharta - My Dice

Can you be the light  
and adore your soul  
then you don't need to be angry and avoid your calls  
with a pleasant face  
anywhere in space  
your mind is a hyper tool it fixes everything  
can you see them all  
having no control  
when the plan is keeping distance from another fall  
if you open up  
and enjoy your luck  
we might as well be happy even if it's dark

can you be my fuckin' love  
can you be my fuckin' love

Dive in my little dice  
I can see the reason when you say goodbye  
filling this new surprise  
don't be just another with the devil sight
