

Siddharta, My Dice

Siddharta - My Dice

Can you be the light
and adore your soul
then you don't need to be angry and avoid your calls
with a pleasant face
anywhere in space
your mind is a hyper tool it fixes everything
can you see them all
having no control
when the plan is keeping distance from another fall
if you open up
and enjoy your luck
we might as well be happy even if it's dark

can you be my fuckin' love
can you be my fuckin' love

Dive in my little dice
I can see the reason when you say goodbye
filling this new surprise
don't be just another with the devil sight
