Side A, Forevermore

there are times
when i just want to look at your face
with the stars in the night
there are times
when i just want to feel your embrace
in the cold of the night
i just cant believe that you are mine now

chorus:

you were just a dream that i once knew i never thought i would be right for you i just cant compare you with anything in this world you're all i need to be with forevermore

all those years ive longed to hold you in my arms i've been dreaming of you every night, i've been watching all the stars that fall down wishing you would be mine i just cant believe that you were mine now

chorus

time and again there are these changes that we cannot end sure a star that keeps going on and on my love for you will be forevermore

wishing you would be mine i just cant believe that you were mine now

you were just a dream that i once knew i never thought i would be right for you i just cant compare you with anything in this world as endless as forever our love will stay together you're all i need to be with forever more (as endless as forever our love will stay together) you're all i need to be with forevermore...
