

Sigala / Digital Farm Animals, Only One

Flashing light
Won't let me go
Your ultralight beam staring at my soul
You galaxy
My shooting star
A Supernova aiming straight for my heart

No one does it better than, better than, better than

Baby you
Get me feeling like
feeling like the only one

She super fly
She wann ago
Take me to Jupiter
And show me your home
We're moving face
But time is slow
I don't care ... let everybody know
