Sigala, Ella Eyre, Came Here For Love

I can see that you're watching me Come over, talk to me Need you to give me a sign You got that something sweet That don't come easily It's what I need tonight

I came here for love For someone to hold me down I won't give to up, no I want you to reach out

I came here for love /3x I want you to reach out

I'm so ready to get on it you fallow me, you'll be fine And I'm in too deep have I fallen Without anyone inside

I can see that you're watching me Come over, talk to me Need you to give me a sign You got that something sweet That don't come easily It's what I need tonight

I came here for love For someone to hold me down I won't give to up, no I want you to reach out

I came here for love /3x I want you to reach out

This is wat we came here for Qwe came here for love I won't give I won't give it up
