

Sigala, Feel It Deep Inside (feat. Dopamine)

I hate tequila, champagne and swimming pools
Getting paid for coming through
Just wake me up, I'm stuck in the land of fools
Gucci this, Gucci that, potions and chemicals

I want something more than that
(Something deeper baby)
Skip with all the shallow chat, yeah
I want something more than that
If you wanna keep me round
I'ma need to feel it deep inside

Deep inside, deep deep down inside
Deep deep deep inside, deep
I'ma need to feel it deep inside
Deep inside, deep deep down inside
Deep deep deep inside, deep
I'ma need to feel it deep inside

Baby you might be fine
But I ain't about that life
When will you see that
I'ma need to feel it deep inside?
Don't care about your ice
Or your expensive ride
When will you see that
I'ma need to feel it deep inside?

Deep inside, deep deep down inside
Deep deep deep inside, deep

Cryptos and cars, fake friends and bank accounts
[?] cocaine in large amounts
Just wake me up, everyone's so flashy
Wearing bougie this, bougie that, trying hard to be somebody

I want something more than that
(Something deeper baby)
Skip with all the shallow chat, yeah
I want something more than that
If you wanna keep me round
I'ma need to feel it deep inside

Deep inside, deep deep down inside
Deep deep deep inside, deep
I'ma need to feel it deep inside
Deep inside, deep deep down inside
Deep deep deep inside, deep
I'ma need to feel it deep inside

I'ma need to feel it deep inside
I'ma need to feel it deep inside

Baby you might be fine
But I ain't about that life
When will you see that
I'ma need to feel it deep inside?
Don't care about your ice
Or your expensive ride
When will you see that
I'ma need to feel it deep inside?
