

# Sigala, Paloma Faith, Lullaby

[Verse 1]

Will you lay me down?  
Make our hearts the only sound  
Throw my fears all to the ground  
Will you hold me?  
Will you serenade me  
With the song you used to play?  
'Til the night turns into day  
Will you hold me?

[Pre-Chorus]

'Cause all I need is somebody near me  
When my heart gets weak  
Somebody out there watching over me  
When I'm so tired, I can't even sleep

[Chorus]

Won't you sing me your sweet lullaby?  
Just the sound of your voice is the thing that I need  
Won't you sing me your sweet lullaby?  
I could fall for the sound of your sweet melody  
'Cause I just need your song  
Something to sing along  
When I'm not feeling strong, I need you  
To sing me your sweet lullaby  
Need the sound of your sweet melody  
So sing to me

[Post-Chorus]

So sing to me  
Need the sound of your sweet melody  
So sing to me

[Verse 2]

I'll be there when you're down  
'Cause forever, I am bound  
For my love, I shout it out  
Let me hold you  
No journey is too far  
For the one who healed my scars  
You're my saviour, you're my star  
Let me hold you

[Pre-Chorus]

'Cause all I need is somebody near me  
When my heart gets weak  
Somebody out there watching over me  
When I'm so tired, I can't even sleep

[Chorus]

Won't you sing me your sweet lullaby?  
Just the sound of your voice is the thing that I need  
Won't you sing me your sweet lullaby?  
I could fall for the sound of your sweet melody  
So sing to me

[Bridge]

When I'm not sleeping, you're all I need and  
When my heart stops beating, just sing to me  
When I'm not sleeping, you're all I need and  
When my heart stops beating, just sing to me  
When I'm not sleeping, you're all I need and  
Just sing to, sing to me  
Can't you please sing to me?

[Chorus]  
Won't you sing me your sweet lullaby?  
Just the sound of your voice is the thing that I need  
Won't you sing me your sweet lullaby?  
I could fall for the sound of your sweet melody  
'Cause I just need your song  
Something to sing along  
When I'm not feeling strong, I need you  
To sing me your sweet lullaby  
Need the sound of your sweet melody  
So sing to me
