

# Sigala, Rita Ora, You for Me

I should've told you that I wanted you for me

You make it really hard to sleep  
You keep me up  
Maybe you're my adrenaline,  
Brought out this side of me  
Don't even know  
Controlling my whole anatomy,

Fingers are holding you right at the edge  
You're slipping out of my hands  
Keepin' my secrets all up in my head  
I am scared that you won't want me back

I dance to ever song like it's about you  
I drink till i kiss someone who looks like you  
I wish that i was honest when i had you  
I should've told you that i wanted you for me  
I dance to ever song like it's about you  
I drink till i kiss someone who looks like you  
I wish that i was honest when i had you  
I should've told you that i wanted you for me

wanted you for me  
I should've told you that i wanted you for me

I am at this party just because  
Tears in my cup  
Swallow it down to feel the rush  
I am on the other side of town  
Spinning around  
Don't even know you let me down

Fingers are holding you right at the edge  
You're slipping out of my hands  
Keepin' my secrets all up in my head  
I am scared that you won't want me back

I dance to ever song like it's about you  
I drink till i kiss someone who looks like you  
I wish that i was honest when i had you  
I should've told you that i wanted you for me

Innocent lovers  
We hold on to one another  
Let's rediscover  
You are the one for me

I dance to ever song like it's about you  
I drink till i kiss someone who looks like you  
I wish that i was honest when i had you  
I should've told you that i wanted you for me  
I dance to ever song like it's about you  
I drink till i kiss someone who looks like you  
I wish that i was honest when i had you  
I should've told you that i wanted you for me
