Sigma, Guardians

I feel the power surrounding the sound of my heart, in the night I'm looking afraid in your eyes I can hear the voice of the doom

Guardians Of SIGMA We're saving Our stone, but

Nothing is sure until sunrise Fire will burn your heart, but you can stop it Nothing is sure until we fight Don't you know that all my heroes died

From ashes goes out the SIGMA And now we can stop every wars The sky is turning to dark There's no time to loose, for my soul

Guardians Of SIGMA We're saving Our stone, but

Nothing is sure until sunrise Fire will burn your heart, but you can stop it Nothing is sure until we fight Don't you know that all my heroes died
