

# Signum, Come Around Again (feat Anita Kelsey)

Never planned it this way,  
Never thought I'd see the end of this  
Fantastic dream.  
Never planned it this way,  
Never thought I'd see the end of this  
Fantastic dream.

See you turn towards me,  
Place your lips on mine. Just one last kiss  
Before you leave.

Oh there's something there in  
The back of my mind, haunting me,  
Pulling me down.

Going round on empty,  
From the sense you made to me.  
Oh what a fool.

It's come around again,  
I'm falling to the sound of my heart  
In pieces.

The feeling's just the same,  
When love is ending there is nothing like this pain,  
And it's come around again.

It's come around again.  
It's come around again.  
Oh no, oh no, oh no.  
The feeling's just the same.  
Oh no, oh no, oh no.  
There is nothing like this pain,  
It's come around again.

It's come around again,  
I'm falling to the sound of my heart.  
In pieces.

The feeling's just the same,  
When love is ending there is nothing like this pain,  
And it's come around again.
