

Sigrblot, Commie Scum

Don't try to speak to me about racial equality
Blacks and Whites are not the same
Lies spread by the communists
Hand in hand with the capitalists
Smash them both is my aim

Chorus:

I hate commie scum

I hate commie scum

I spit on the red flag

I hate commie scum

I hate commie scum

The Reds are on the street tonight

Let's get that commie scum

Half of Europe is enslaved

White brothers in shackles and chains

Communism is to blame

It won't happen here

To lose freedom is the thing I fear

It'd mean everlasting Shame

Chorus x2

To try and stop the trend

I'll fight to the bitter end

Red scum and traitors better beware

We'll carry on the fight

Till you see the light

Or we'll see you rot in hell

Chorus
