

Silent Circle, Just Another Moment

You changed my life forever. I'm so confused
I cannot stand for longer. I feel abused
Tell me just how you feel,
I cannot give up on dreaming
How could I lose control? Don't play that game.

Just another moment by your side,
Could it be that we will stay together?
'Cause I feel I need you more and more,
Need you forever.

The time we spent together has changed my mind
You're what I'm searching for, but I've been so blind
Nothing has left to say. Don't walk away forever
All that I want is you for all my life.

Nothing's left to say. Don't walk away forever
All that I want is you for all my life
Tell me just how you feel...
