

Silent Circle, Oh, Don't Lose Your Heart Tonight

I believe the magic in your eyes
Why can't you stop girl all your lies
Nights of fear and nights of love we had,
Nights of laughter and dreams
Nowadays your eyes are looking sad - why?

Oh-oh-oh, don't lose your heart tonight
I don't want to share your loving thrill
Oh-oh-oh, it feels like heaven
Lonely nights, it turns to hell.

Oh-oh-oh, don't lose your heart tonight
Say a few loving words and try it again
Oh-oh-oh, our sweet emotions
Will survive and stop the rain.

You are my angel in the night
True have been all the tears I've cried
I have lost, but I can win again
I am fighting for you
Break the root and find the way back again.

Day by day I need you more than I can bear
Don't forget me 'cause I love you still
Time and time it's always I can't find your love
In your eyes I see the tears.

Oh-oh-oh-oh
Oh-oh-oh-oh.

Day by day I need you more than I can bear
Don't forget me 'cause I love you still
Time and time it's always I can't find your love
In your eyes I see the tears.
