

# Silent decay, strong like this

sorry if I don't handle with care  
these are words that have to be spoken  
you and your followed believe  
in a future that's lost on this way  
ghettos around your wall-street shows your feelings for us and your visions  
you hate us  
no one paid us  
you make us strong like this!  
there are so much of us, so many brothers around me  
evolution is not such a big thing  
please wake up and be what you wanna be!
