

# Silent Drive, Broken Hearts Club

We're standing left in line  
I'm looking at ghosts and I can't believe it was that as good as it gets  
And were you meant to leave me so freely

I stop to pinch three times  
Just to know it's true to know I can feel this

I'm reading but I cannot believe that this life support is not in high demand  
I stop and think that this cannot be but this life is gone forever  
You would enter the room  
Flowers would bloom with all the smiles that made sense  
Just can't believe that this smile is gone forever

The scenery is flat and all the dancing is over  
The music has stopped  
Life's meant to be turning and not to be this afraid
