

# Silent Drive, Henpecked

I would have never taken all this weight off your back  
If I knew the fucking time I wasted (how fucking bad it tasted)  
I saw you reaching out for help this time  
Keep those eyes up fo I can see them  
'Cause I'm throwing out the biggest right  
This time we've just run out of reasons

It's time to fight  
You always wanted to see more  
When you were all I wanted you for  
It's time to fight  
When I can't believe I believed those unbelievable eyes  
And that smile that turned me red

Wait stop, who the hell are you?  
We are the fabulous, the mythical two  
Can't stop us this time  
No stopping us this time  
We're just blindly driving lives again  
Until we crash  
Until one of us bends

It's time to fight  
You always wanted to see more  
When you were all I wanted you for

We claimed to make our dreams come true  
We're going to do it now  
By colouring each one and other black and blue  
We claimed to make our dreams come true  
We're going to do it now  
by colouring until it stops

Let's get ready to rumble!

We're ripe tonight  
We're going to stop this timeline  
We're ripe tonight  
We're going to stop this timeline now
