

# Silent Force, Live For The Day

Grant a wish that I can come and claim  
Simple reasons that are not hard to obtain  
Thinking back on what I have not done  
(What little to show)

There was a time when I know I was lost  
Could it be here again at every cost?  
If they had walked beside all of these men  
No way, no innocence will stand in the end

Facing the fine line of life  
Live for the day  
Looking for a break in the time of the one  
I'll take on, live for the day

Through the doors I'll walk the longest asile  
Kneel before the man, the man who reconciles  
Offense against the one who takes my place  
(How far can I go?)

There was a time, when I looked far ahead  
Could it be here this day or am I mislead?  
If they had walked in the shoes of all the men  
There is no innocence to grab in the end

Facing the fine line of life  
Live for the day  
Looking for a break in the time of the one  
I'll take on, live for the day

Live today, live today, standing in the light  
Live today, live today, standing in the light

(Undescribed, undescribed, it is all so undescribed  
Innocence, innocence, where is all the the innocence  
Undescribed, undescribed, it is all so undescribed  
Innocence, innocence, where is all the the innocence)

Standing in the light of daytime  
Stand in the light of day  
Standing in the light of daytime  
Stand in the light of day

Standing in the light of daytime  
Stand in the light of day  
Standing in the light of daytime  
Stand in the light of day

Facing the fine line of life  
Live for the day  
Looking for a break in the time of the one  
I'll take on, live for the day

Facing the fine line of life  
Live for the day  
Looking for a break in the time of the one  
I'll take on, live for the day
