

# Silent Stream Of Godless Elegy, Winter Queen

Beauty will be taken by Darkness  
make Love with her  
Dawn comes without Pain unexpected  
you'll stay Unstained  
don't Trust light Reflection in Tears  
then Sin can Stay  
Desire kills Invention as casualty  
cause Sin will Stay

I am a winter queen for you  
The last and the first one too  
I descend from the sky onto your grave  
I'll set you free as the only one

The last and the first for you  
I'll kill you and cover with my body

You were born into my arms  
Without crying, cold as my clothes  
With the frozen heart

we're Those who Weep silently without tears  
we're Those who Watch this happiness  
while hidden Behind Trees  
we're Those who Sleep awoken without fear  
we're Those who Dare to permeate  
while hidden Behind Trees

Lament is drowned asunder a Reverie  
song with no sound  
Dreams dwell Hideous games not ending  
just Fractured Time  
don't Leave words unspoken each time  
beyond the line  
a finger-painted Picture Leaves Scars  
cause Sin will Stay

I am a winter queen for you...

we're Those who Weep...
