

# Silentium, Ere I Falleth

Ere I falleth, I liveth amongst ye  
Now I the fiend, bring the hate amongst ye  
Ere I falleth, falleth into depths  
Longyng to feel, underworld I have fallen

For ye my black heart now weeps  
Ye'll embrace with every dream  
Come my child, and fall with me  
Forever burns the pain with thee

In vast oceans I have drowneth me  
Times on end, I'm dwelling the dreadful sea  
Ere I falleth, falleth into dark  
The pain alone has ripped me apart

There my sweet child, what is laying apart  
There my sweet love, there is my heart  
Here my sweet child, what has fallen into dark  
Here my sweet love, here is my heart

Alas, where are ye, ye darkeneth my light  
As days wore on, I dwelleth in the night  
Ere I falleth, falleth in despair  
The pain of dethe is mere
