

# Silje Nergaard, Be Gone

Be what you wanna be and leave the rest me  
Another name crossed out on my list  
Say what you've got to say  
Then you can make your way  
Towards my door walk on through a mist  
There's no rush take your time  
Punishment is part of crime  
You'll soon see what you have to pay  
You moved and make your film  
My (?) here's the bill  
So let us hear what you have to say

Be gone  
How yuo gonna make it  
When you win a heart to break it  
when you chuckle out the faking  
Be gone  
we are the last reminder (?)  
A keeper's not a finder  
So be a little kinder  
Be good  
Are you gonne be gone

You think I'm hard as nail  
So hope you might check to scale  
To (?) you to get this heart to sway  
This heart ain't yours to break  
So if you're wise  
You'll be on your way  
Be gone

Be gone  
How yuo gonna make it  
When you win a heart to break it  
when you chuckle out the faking  
Be gone  
(?)  
A keeper's not a finder  
So be a little kinder  
Be good  
Write this in a letter  
no no matter we must stand for better  
But until I find another way  
Be gone, be gone, be gone

Baby be gone  
You can go  
Be gone, be gone, be gone
