

Silk, Girl U For Me

Tonight is the night
(The night)
And the moon is bright
(so bright)
Baby let me tell you
I'm in love with you tonight
the more love we make
(we make)
And the more love we take
Baby can I tell you
I won't let you get away

Chorus:
Girl you for me
And girl me for you
I don't care what people might say
Just ask and I'll do
I'll do it for you
There will be no more games that we play

The night that we met
(na na na na)
Is the night I won't forget
How you touched my heart
And you made me realize
I knew you were the one
After all was said and done
Baby let me tell you
that I want you by my side

Repeat Chorus:
