

Silke Bischoff, Shining Star

Shining star
Come to me you sparkling star
And give me your smile
You'll be mine

And give me your smile

Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star

Take me along to the place
Where I can feel the heat
Cold is the light here tonight

And give me your smile
You'll be mine

Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star

Come to me you sparkling star
And keep the darkness away from me
Cold is the light here tonight
The night that makes our pale skin look even paler
No moon round here
Not a single star

Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star

Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star

Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star
Come to me you sparkling star
