

# SILVER STREET, When Somebody

Take it slow  
Girl I don't see how we could  
Think this through  
I am not convinced we should  
We both know  
There ain't nothing stopping this  
It's too strong  
We just have to run with it

When somebody loves somebody  
There's no need for a second opinion 'cause you just know  
When somebody loves somebody  
There's no need for directions you know exactly where to go

Make it count  
Live each day like it's our last  
Look ahead  
We don't care about the past

All we know  
Is life after the day we met  
A clean slate  
Free of all our past regrets  
When somebody loves somebody  
There's no need for a second opinion 'cause you just know  
When somebody loves somebody  
There's no need for directions you know exactly where to go  
Let it flow  
Uncontrolled  
Don't think twice  
Just let go  
When somebody loves somebody  
There's no need for a second opinion 'cause you just know  
When somebody loves somebody  
There's no need for directions you know exactly where to go

Where to go  
When somebody loves somebody you just know  
You just know  
When somebody loves somebody you just know
