

# Silverstein, The Sand Will Turn To Glass

I can't believe that I can be  
Full of so much hate  
Another hero dies, the devil wins  
The people hide their shame

Lies were spoken  
Bonds were broken  
Can he ever change?  
Turn your back and  
Run away as fast as you can  
Don't mark your name

Half a dozen guns  
All pointed straight  
At the hunted one  
A misfired shell  
You've shot the  
Only thing you love

Lies were spoken  
Bonds were broken  
Can he ever change?  
Turn your back and  
Run away as fast as you can  
Don't mark your name  
Yeah!

Sunshine turns to darkness everyday  
The fragile's born from honesty  
losing faith

I can't believe  
How suddenly  
Guilty hearts can mend  
I know myself  
I've killed and  
I'll do it again

Lies were spoken  
Bonds were broken  
Can he ever change?  
Turn your back and  
Run away as fast as you can  
Don't mark your name  
Yeah!
