

Silversun Pickups, Creation Lake

The way things have fallen
Can't be afraid anymore
First we were water
In creation lake
Have to start to end
To go where life lives

There's 24 parts in a day that divides me from you

The way things have fallen
Can't be afraid anymore
First we were water
Came from clouds hit the ground
Mama's the sweetest
Alarm clock around

There's 24 parts in a day that divides me from you...
