

# Silversun Pickups, Sci-Fi Lullaby

No more resolutions  
No more leading ons  
No more cheap discoveries  
No "where did we go wrong";

It's over, over, over  
Over you  
It's over, over, over  
Over you

No white noise could save us  
No "what could we have done";  
No piece of shit discoveries  
For our little alien

Cause it's over, over, over  
Over you  
It's over, over, over  
Over you

It's over, over, over  
Over you  
It's over, over, over  
Over you
