

Silversun Pickups, The Royal We

We are ready for the siege
We are armed up to the teeth
We care for how you live and breathe
Release what's broken underneath
How many times do you wanna die
How many wings
Do you wanna die
Do you feel safe again? look over your shoulder
Very carefully look over your shoulder
We can laugh about it now
We hope everything works out
Be careful how you lick your wounds
Believe that change is coming soon
How many times do you wanna die
How many wings
Do you wanna die
Do you feel safe again? look over your shoulder
Very carefully look over your shoulder
You used to do a little but a little won't fly
Right before you hit your prime
That's when we fell in love but not the first time
Can I please you still?
Put your name in my father's will?
Or does it make you ill
Let us prove was the me's
We will lean straight forward and feed
You will be relieved
So relieved
So relieved
To the floor
It was I
Feel the sparkles verified
Misery inspires
Your flow has been caught sabotaged
Before
Never noticed the size of the floor
It can be, you know
Do you feel safe again? look over your shoulder
Carefully look over your shoulder
You said you believe but believing won't fly
Right before you hit your prime
That's when we fell in love but not the first time
And when it's all over and you open your eyes
And it still won't turn on inside
And you'll be lying down low on the floor side
The royal we [x8]
Love the royal we
