

Silvertide, S.F.C.

Why don't you just try to see it all my way?
'Cause I'm really not liking what you have to say
You think you know it all, you think that I won't change?
But I'm really not listening to you anyway!

It's all in your head, you're stuck in your head my friend
You're stuck in your head, you're stuck in your head my friend
They should lock you up in a padded room
You psycho schizoid loon

You're so fuckin' crazy
I think you're out of your mind
You're so fuckin' crazy
Why ya wastin' all my precious time?

They'll give you medication until you need some more
When they tie you up tight you know you won't get bored
They'll try to feed you holy water, love and TV
You'll pay with your mind but the sedation is free

It's all in your head, you're stuck in your head my friend
You're stuck in your head, you're stuck in your head my friend
They should lock you up in a padded room
You psycho schizoid loon

You're so fuckin' crazy
I think you're out of your mind
You're so fuckin' crazy
Why ya wastin' all my precious time?

The full moon's out tonight
The loon lurks in the night
The full moon's out tonight
The full moon's out tonight

It's all in your head, you're stuck in your head my friend
You're stuck in your head, you're stuck in your head my friend
They should lock you up in a padded room
You psycho schizoid loon

You're so fuckin' crazy
I think you're out of your mind
You're so fuckin' crazy
Why ya wastin' all my precious time?

Wastin' all my precious time
Wastin' all my fuckin' time
