

Simon And Garfunkel, Mbellene

[Chorus:]

(Oh) Mbellene, why can't you be true, whoah Mbellene, why can't you be true
You're not startin' right, doin' those things you used to do

As I was motivatin' over the hill, I was Mbellene in a coup Deville
Cadillac roarin' at the open road, yeah but nothin' but a racecar bein' fold
Cadillac doin' by 95, oh mama and papa in side to side

[Chorus]

He cooled down, the motor cooled down
That's when I'd heard that highway sound
I kept back sittin' like a ton of leather
Got a hundert and ten a half mile ahead
Cadillac lookin' like it's standin' still
And I caught Mbellene at the top of the hill

[Chorus]

[Instrumental break]

[Chorus]

You're not startin' right, doin' those things you used to do
You're not startin' right, doin' those things you used to do
